Foxes: Facts & Pictures - Live Science A fox's diet can consist of small animals, such as lizards, voles, rats, mice, rabbits and hares. They round out their diet with birds, fruits and bugs, according to the Smithsonian . Foxes that live near the ocean eat fish and crabs, as well. Red Fox Information, Photos, and Facts - American Expedition Red Foxes mate in the winter and the female fox gives birth to a litter of 2-12 kits in the spring. The kits are dark gray in color at the time of birth, but grow a new coat within a month. Both the male and female fox cares for the kits until they are ready to leave in the fall. Red Fox - Animal Facts, Education & Inspiration Amazing Facts About the Red Fox. A fox's den is normally a burrow underground, also known as an earth den, but they can also live above ground in a cosy hollow. While they are solitary animals, during breeding season (winter) when they court and mate, the dog fox will support the female (vixen) by bringing food for the family (early spring).
